

PENSION SURVEY!

Your pension is worth 20 minutes.

This is step one.

To build a successful campaign for better pensions, we need to hear from members at **every age** and **every stage** of their careers. We all deserve a fair pension to retire with dignity. What does that look like for you? We want to know.

Whether retirement is 30 years away, right around the corner, or already here, your voice belongs in this campaign. The more members who respond, the stronger the foundation for the work ahead.

Set aside 20 minutes.

This isn't a quick survey. This issue is complicated. Give it your full attention, understand the different options we can fight for, and make your voice count.

We've had wins, there's more to do.

Complete your survey and watch for an all-member webinar in September. We'll discuss what we learned, what comes next, and how members can help move the campaign forward.

Widespread participation in the survey is essential. Encourage your coworkers to complete and submit a survey response! Scan the above QR Code or visit neari.org/events/pensionsurvey
